

Encino & Parthenia development — same developer now targeting Shoshone & Parthenia

Protect Our Neighborhood!

Developers are using loopholes to avoid public review or city planning oversight in Sherwood Forest.

WHAT'S AT STAKE

- ❗ The same developer who built the Encino & Parthenia project has now demolished the 2.5-acre site at Shoshone & Parthenia and may use the same process to construct an even larger development. This can happen on your street.
- ❗ All this, without proper review of traffic, safety or emergency access in/out of our neighborhood.
- ❗ A small group of us have engaged our legislators and contacted media to fight this issue. Please join us to learn more.
